

## **HDD Enclosure Kit** turns 2.5 in. drive into external unit.

Mercury On-The-Go hard drive enclosure kits enable users to build portable hard drives or reuse existing 2.5 in. SATA internal laptop hard drives as

portable external drives that hook up to any computer with USB 2.0 port. Offered with USB 2.0 and USB 2.0+eSATA interface options, fully bootable and see-through products provide shock protection and keep drives cool with built-in aluminum heatsink and pass-through cooling vents. **Other World Computing;**
