

## **Portable 200 GB hard drives**

The Mercury On-The-Go from **Other World Computing** (OWC) is a 7200 rpm portable, bus-powered 200 GB portable hard drive. The unit is equipped with FireWire 800/400, USB2, and eSATA interfaces. It is a bus-powered, palm-sized, high-performance storage solution. The drive is built on the latest Hitachi 7K200 mechanism with OWC's custom Oxford924 bridge interface. In addition to the 200 GB 7200 rpm drive, OWC offers the Mercury On-The-Go 250 GB 5400 rpm portable hard drive. This unit is available for FireWire 800/400, USB 2.0, and eSATA.

All Mercury-On-The-Go models are compatible with Apple OS Versions 8.5 through 9.2.x; Apple OS X 10.0.3 and higher (including OS X 10.4.x); and Microsoft Windows 98SE, ME, 2000, XP. Both drives are available through OWC and other retailers. The OWC Mercury On-The-Go 200 GB 7200 rpm portable drive is priced at \$360, and the Mercury On-The-Go 250 GB 5400 RPM portable drive is \$320. Both drives have two FireWire 800/400 ports and one USB 2 port, and ship with FireWire 400/800 cables, USB cable, Prosoft DataRescue III for OS X and NovaStor NovaBackup for Windows.
